5. The director shall define by rule the method of determining when a hospital bill will be considered received and when a hospital's billed charges will be considered paid. Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I shall be considered payment of the hospital bill in full, except that a hospital may collect any unpaid portion of its bill from other third party payors or in situations covered by title 33, chapter 7, article 3.

H. For inpatient hospital admissions and outpatient hospital services on and after March 1, 1993 the administration shall adopt rules for the reimbursement of hospitals according to the following procedures:

1. For inpatient hospital stays, the administration shall use a prospective tiered per diem methodology, using hospital peer groups if analysis shows that cost differences can be attributed to independently definable features that hospitals within a peer group share. In peer

grouping the administration may consider such factors as length of stay differences and labor market variations. If there are no cost differences, the administration shall implement a stop loss-stop gain or similar mechanism. Any stop loss-stop gain or similar mechanism shall ensure that the tiered per diem rates assigned to a hospital do not represent less than ninety per cent of its 1990 base year costs or more than one hundred ten per cent of its 1990 base year costs, adjusted by an audit factor, during the period of March 1, 1993 through September 30, 1994. The tiered per diem rates set for hospitals shall represent no less than eighty-seven and one-half per cent or more than one hundred twelve and one-half per cent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1994 through September 30, 1995 and no less than eighty-five per cent or more than one hundred fifteen per cent of its 1990 base year costs, adjusted by an audit factor, from October 1, 1995 through September 30, 1996. For the periods after September 30, 1996 no stop loss-stop gain or similar mechanisms shall be in effect. An adjustment in the stop loss-stop gain percentage may be made to ensure that total payments do not increase as a result of this provision. If peer groups are used the administration shall establish initial peer group designations for each hospital before implementation of the per diem system. The administration may also use a negotiated rate methodology. The tiered per diem methodology may include separate consideration for specialty hospitals that limit their provision of services to specific patient populations, such as rehabilitative patients or children. The initial per diem rates shall be based on hospital claims and encounter data for dates of service November 1, 1990 through October 31, 1991 and processed through May of 1992.

2. For rates effective on October 1, 1994, and annually thereafter, the administration shall adjust tiered per diem payments for inpatient hospital care by the data resources incorporated market basket index for prospective payment system hospitals. For rates effective beginning on October 1, 1999, the administration shall adjust payments to reflect changes in length of stay for the maternity and nursery tiers.

3. Through June 30, 2004, for outpatient hospital services, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to the covered charges. Beginning on July 1, 2004 through June 30, 2005, the administration shall reimburse a hospital by applying a hospital specific outpatient cost-to-charge ratio to covered charges. If the hospital increases its charges for outpatient services filed with the Arizona department of health services pursuant to chapter 4, article 3 of this title, by more than 4.7 per cent for dates of service effective on or after July 1, 2004, the hospital specific cost-to-charge ratio will be reduced by the amount that it exceeds 4.7 per cent. If charges exceed 4.7 per cent, the effective date of the increased charges will be the effective date of the adjusted Arizona health care cost containment system cost-to-charge ratio. The administration shall develop the methodology for a

capped fee-for-service schedule and a statewide cost-to-charge ratio. Any covered outpatient service not included in the capped fee-for-service schedule shall be reimbursed by applying the statewide cost-to-charge ratio that is based on the services not included in the capped fee-for-service schedule. Beginning on July 1, 2005, the administration shall reimburse clean claims with dates of service on or after July 1, 2005, based on the capped fee-for-service schedule or the statewide cost-to-charge ratio established pursuant to this paragraph. The administration may make additional adjustments to the outpatient hospital rates established pursuant to this section based on other factors, including the number of beds in the hospital, specialty services available to patients and the geographic location of the hospital.

4. Except if submitted under an electronic claims submission system, a hospital bill is considered received for purposes of this paragraph on initial receipt of the legible, error-free claim form by the administration if the claim includes the following error-free documentation in legible form:

(a) An admission face sheet.

(b) An itemized statement.

(c) An admission history and physical.

(d) A discharge summary or an interim summary if the claim is split.

(e) An emergency record, if admission was through the emergency room.

(f) Operative reports, if applicable.

(g) A labor and delivery room report, if applicable.

Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I is considered payment by the administration or the contractor of the administration's or contractor's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third party payors or in situations covered by title 33, chapter 7, article 3.

5. For services rendered on and after October 1, 1997, the administration shall pay a hospital's rate established according to this section subject to the following:

(a) If the hospital's bill is paid within thirty days of the date the bill was received, the administration shall pay ninety-nine per cent of the rate.

(b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the administration shall pay one hundred per cent of the rate.

(c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the administration shall pay one hundred per cent of the rate plus a fee of one per cent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. In developing the reimbursement methodology, if a review of the reports filed by a hospital pursuant to section 36-125.04 indicates that further investigation is considered necessary to verify the accuracy of the information in the reports, the administration may examine the hospital's records and accounts related to the reporting requirements of section 36-125.04. The administration shall bear the cost incurred in connection with this examination unless the administration finds that the records examined are significantly deficient or incorrect, in which case the administration may charge the cost of the investigation to the hospital examined.

7. Except for privileged medical information, the administration shall make available for public inspection the cost and charge data and the calculations used by the administration to determine payments under the tiered per diem system, provided that individual hospitals are not identified by name. The administration shall make the data and calculations available for public inspection during regular business hours and shall provide copies of the data and calculations to individuals requesting such copies within thirty days of receipt of a written request. The administration may charge a reasonable fee for the provision of the data or information.

8. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the prospective payment of inpatient hospital capital related costs. The capital payment shall include hospital specific and statewide average amounts. For tiered per diem rates beginning on October 1, 1999, the capital related cost component is frozen at the blended rate of forty per cent of the hospital specific capital cost and sixty per cent of the statewide average capital cost in effect as of January 1, 1999 and as further adjusted by the calculation of tier rates for maternity and nursery as prescribed by law. The administration shall adjust the capital related cost component by the data resources incorporated market basket index for prospective payment system hospitals.

9. For graduate medical education programs:

(a) Beginning September 30, 1997, the administration shall establish a separate graduate medical education program to reimburse hospitals that had graduate medical education programs that were approved by the administration as of October 1, 1999. The administration shall separately account for monies for the graduate medical education program based on the total reimbursement for graduate medical education reimbursed to hospitals by the system in federal fiscal year 1995-1996 pursuant to the tiered per diem methodology specified in this section. The graduate medical education program reimbursement shall be adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Subject to legislative appropriation, on an annual basis, each qualified hospital shall receive a single payment from the graduate medical education program that is equal to the same percentage of graduate medical education reimbursement that was paid by the system in

federal fiscal year 1995-1996. Any reimbursement for graduate medical education made by the administration shall not be subject to future settlements or appeals by the hospitals to the administration. The monies available under this subdivision shall not exceed the fiscal year 2005-2006 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement, except for monies distributed for expansions pursuant to subdivision (b) of this paragraph.

(b) The monies available for graduate medical education programs pursuant to this subdivision shall not exceed the fiscal year 2006-2007 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Graduate medical education programs eligible for such reimbursement are not precluded from receiving reimbursement for funding under subdivision (c) of this paragraph. Beginning July 1, 2006, the administration shall distribute any monies appropriated for graduate medical education above the amount prescribed in subdivision (a) of this paragraph in the following order or priority:

(i) For the direct costs to support the expansion of graduate medical education programs established before July 1, 2006 at hospitals that do not receive payments pursuant to subdivision (a) of this paragraph. These programs must be approved by the administration.

(ii) For the direct costs to support the expansion of graduate medical education programs established on or before October 1, 1999. These programs must be approved by the administration.

(c) The administration shall distribute to hospitals any monies appropriated for graduate medical education above the amount prescribed in subdivisions (a) and (b) of this paragraph for the following purposes:

(i) For the direct costs of graduate medical education programs established or expanded on or after July 1, 2006. These programs must be approved by the administration.

(ii) For a portion of additional indirect graduate medical education costs for programs that are located in a county with a population of less than five hundred thousand persons at the time the residency position was created or for a residency position that includes a rotation in a county with a population of less than five hundred thousand persons at the time the residency position was established. These programs must be approved by the administration.

(d) The administration shall develop, by rule, the formula by which the monies are distributed.

(e) Each graduate medical education program that receives funding pursuant to subdivision (b) or (c) of this paragraph shall identify and report to the administration the number of new residency positions created by the funding provided in this paragraph, including positions in rural areas. The program shall also report information related to the number of funded

residency positions that resulted in physicians locating their practice in this state. The administration shall report to the joint legislative budget committee by February 1 of each year on the number of new residency positions as reported by the graduate medical education programs.

(f) Local, county and tribal governments and any university under the jurisdiction of the Arizona board of regents may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies for providers, programs or positions in a specific locality and costs incurred pursuant to a specific contract between the administration and providers or other entities to provide graduate medical education services as an administrative activity. Payments by the administration pursuant to this subdivision may be limited to those providers designated by the funding entity and may be based on any methodology deemed appropriate by the administration, including replacing any payments that might otherwise have been paid pursuant to subdivision (a), (b) or (c) of this paragraph had sufficient state general fund monies or other monies been appropriated to fully fund those payments. These programs, positions, payment methodologies and administrative graduate medical education services must be approved by the administration and the centers for medicare and medicaid services. The administration shall report to the president of the senate, the speaker of the house of representatives and the director of the joint legislative budget committee on or before July 1 of each year on the amount of money contributed and number of residency positions funded by local, county and tribal governments, including the amount of federal matching monies used.

(g) Any funds appropriated but not allocated by the administration for subdivision (b) or (c) of this paragraph may be reallocated if funding for either subdivision is insufficient to cover appropriate graduate medical education costs.

~~10. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the payment of claims with extraordinary operating costs per day. For tiered per diem rates effective beginning on October 1, 1999, outlier cost thresholds are frozen at the levels in effect on January 1, 1999 and adjusted annually by the administration by the global insight hospital market basket index for prospective payment system hospitals. Beginning with dates of service on or after October 1, 2007, the administration shall phase in the use of the most recent statewide urban and statewide rural average medicare cost-to-charge ratios or centers for medicare and medicaid services approved cost-to-charge ratios to qualify and pay extraordinary operating costs. Cost-to-charge ratios shall be updated annually. Routine maternity charges are not eligible for outlier reimbursement. The administration shall complete full implementation of the phase-in on or before October 1, 2009.~~

~~11.~~ 10. Notwithstanding section 41-1005, subsection A, paragraph 9, the administration shall adopt rules pursuant to title 41, chapter 6

establishing the methodology for determining the prospective tiered per diem payments.

11. FOR INPATIENT HOSPITAL SERVICES RENDERED ON OR AFTER OCTOBER 1, 2011, THE PROSPECTIVE TIERED PER DIEM PAYMENT RATES ARE PERMANENTLY RESET TO THE AMOUNTS PAYABLE FOR THOSE SERVICES AS OF SEPTEMBER 30, 2011 PURSUANT TO THIS SUBSECTION.

I. The director may adopt rules that specify enrollment procedures, including notice to contractors of enrollment. The rules may provide for varying time limits for enrollment in different situations. The administration shall specify in contract when a person who has been determined eligible will be enrolled with that contractor and the date on which the contractor will be financially responsible for health and medical services to the person.

J. The administration may make direct payments to hospitals for hospitalization and medical care provided to a member in accordance with this article and rules. The director may adopt rules to establish the procedures by which the administration shall pay hospitals pursuant to this subsection if a contractor fails to make timely payment to a hospital. Such payment shall be at a level determined pursuant to section 36-2904, subsection H or I. The director may withhold payment due to a contractor in the amount of any payment made directly to a hospital by the administration on behalf of a contractor pursuant to this subsection.

K. The director shall establish a special unit within the administration for the purpose of monitoring the third party payment collections required by contractors and noncontracting providers pursuant to section 36-2903, subsection B, paragraph 10 and subsection F and section 36-2915, subsection E. The director shall determine by rule:

1. The type of third party payments to be monitored pursuant to this subsection.

2. The percentage of third party payments that is collected by a contractor or noncontracting provider and that the contractor or noncontracting provider may keep and the percentage of such payments that the contractor or noncontracting provider may be required to pay to the administration. Contractors and noncontracting providers must pay to the administration one hundred per cent of all third party payments that are collected and that duplicate administration fee-for-service payments. A contractor that contracts with the administration pursuant to section 36-2904, subsection A may be entitled to retain a percentage of third party payments if the payments collected and retained by a contractor are reflected in reduced capitation rates. A contractor may be required to pay the administration a percentage of third party payments that are collected by a contractor and that are not reflected in reduced capitation rates.

L. The administration shall establish procedures to apply to the following if a provider that has a contract with a contractor or noncontracting provider seeks to collect from an individual or financially

responsible relative or representative a claim that exceeds the amount that is reimbursed or should be reimbursed by the system:

1. On written notice from the administration or oral or written notice from a member that a claim for covered services may be in violation of this section, the provider that has a contract with a contractor or noncontracting provider shall investigate the inquiry and verify whether the person was eligible for services at the time that covered services were provided. If the claim was paid or should have been paid by the system, the provider that has a contract with a contractor or noncontracting provider shall not continue billing the member.

2. If the claim was paid or should have been paid by the system and the disputed claim has been referred for collection to a collection agency or referred to a credit reporting bureau, the provider that has a contract with a contractor or noncontracting provider shall:

(a) Notify the collection agency and request that all attempts to collect this specific charge be terminated immediately.

(b) Advise all credit reporting bureaus that the reported delinquency was in error and request that the affected credit report be corrected to remove any notation about this specific delinquency.

(c) Notify the administration and the member that the request for payment was in error and that the collection agency and credit reporting bureaus have been notified.

3. If the administration determines that a provider that has a contract with a contractor or noncontracting provider has billed a member for charges that were paid or should have been paid by the administration, the administration shall send written notification by certified mail or other service with proof of delivery to the provider that has a contract with a contractor or noncontracting provider stating that this billing is in violation of federal and state law. If, twenty-one days or more after receiving the notification, a provider that has a contract with a contractor or noncontracting provider knowingly continues billing a member for charges that were paid or should have been paid by the system, the administration may assess a civil penalty in an amount equal to three times the amount of the billing and reduce payment to the provider that has a contract with a contractor or noncontracting provider accordingly. Receipt of delivery signed by the addressee or the addressee's employee is prima facie evidence of knowledge. Civil penalties collected pursuant to this subsection shall be deposited in the state general fund. Section 36-2918, subsections C, D and F, relating to the imposition, collection and enforcement of civil penalties, apply to civil penalties imposed pursuant to this paragraph.

M. The administration may conduct postpayment review of all claims paid by the administration and may recoup any monies erroneously paid. The director may adopt rules that specify procedures for conducting postpayment review. A contractor may conduct a postpayment review of all claims paid by the contractor and may recoup monies that are erroneously paid.

N. The director or the director's designee may employ and supervise personnel necessary to assist the director in performing the functions of the administration.

O. The administration may contract with contractors for obstetrical care who are eligible to provide services under title XIX of the social security act.

P. Notwithstanding any other law, on federal approval the administration may make disproportionate share payments to private hospitals, county operated hospitals, including hospitals owned or leased by a special health care district, and state operated institutions for mental disease beginning October 1, 1991 in accordance with federal law and subject to legislative appropriation. If at any time the administration receives written notification from federal authorities of any change or difference in the actual or estimated amount of federal funds available for disproportionate share payments from the amount reflected in the legislative appropriation for such purposes, the administration shall provide written notification of such change or difference to the president and the minority leader of the senate, the speaker and the minority leader of the house of representatives, the director of the joint legislative budget committee, the legislative committee of reference and any hospital trade association within this state, within three working days not including weekends after receipt of the notice of the change or difference. In calculating disproportionate share payments as prescribed in this section, the administration may use either a methodology based on claims and encounter data that is submitted to the administration from contractors or a methodology based on data that is reported to the administration by private hospitals and state operated institutions for mental disease. The selected methodology applies to all private hospitals and state operated institutions for mental disease qualifying for disproportionate share payments. For the purposes of this subsection, "disproportionate share payment" means a payment to a hospital that serves a disproportionate share of low-income patients as described by 42 United States Code section 1396r-4.

Q. Notwithstanding any law to the contrary, the administration may receive confidential adoption information to determine whether an adopted child should be terminated from the system.

R. The adoption agency or the adoption attorney shall notify the administration within thirty days after an eligible person receiving services has placed that person's child for adoption.

S. If the administration implements an electronic claims submission system, it may adopt procedures pursuant to subsection H of this section requiring documentation different than prescribed under subsection H, paragraph 4 of this section.

T. IN ADDITION TO ANY REQUIREMENTS ADOPTED PURSUANT TO SUBSECTION D, PARAGRAPH 4 OF THIS SECTION, NOTWITHSTANDING ANY OTHER LAW, SUBJECT TO APPROVAL BY THE CENTERS FOR MEDICARE AND MEDICAID SERVICES, BEGINNING JULY 1,

2011, MEMBERS ELIGIBLE PURSUANT TO SECTION 36-2901, PARAGRAPH 6, SUBDIVISION (a), SECTION 36-2931 AND SECTION 36-2981, PARAGRAPH 6 SHALL PAY THE FOLLOWING:

1. A MONTHLY PREMIUM OF FIFTEEN DOLLARS, EXCEPT THAT THE TOTAL MONTHLY PREMIUM FOR AN ENTIRE HOUSEHOLD SHALL NOT EXCEED SIXTY DOLLARS.

2. A COPAYMENT OF FIVE DOLLARS FOR EACH PHYSICIAN OFFICE VISIT.

3. A COPAYMENT OF TEN DOLLARS FOR EACH URGENT CARE VISIT.

4. A COPAYMENT OF THIRTY DOLLARS FOR EACH EMERGENCY DEPARTMENT VISIT.

Sec. 12. Section 36-2906, Arizona Revised Statutes, is amended to read:

36-2906. Qualified plan health services contracts; proposals; administration

A. The administration shall:

1. Supervise the administrator.

2. Review the proposals.

3. Award contracts.

B. The director shall prepare and issue a request for proposal, including a proposed contract format, in each of the counties of this state, at least once every five years, to qualified group disability insurers, hospital and medical service corporations, health care services organizations and any other qualified public or private persons, including county-owned and operated health care facilities. The contracts shall specify the administrative requirements, the delivery of medically necessary services and the subcontracting requirements.

C. The director shall adopt rules regarding the request for proposal process that provide:

1. For definition of proposals in the following categories subject to the following conditions:

(a) Inpatient hospital services.

(b) Outpatient services, including emergency dental care, and early and periodic health screening and diagnostic services for children.

(c) Pharmacy services.

(d) Laboratory, x-ray and related diagnostic medical services and appliances.

2. Allowance for the adjustment of such categories by expansion, deletion, segregation or combination in order to secure the most financially advantageous proposals for the system.

3. An allowance for limitations on the number of high risk persons that must be included in any proposal.

4. For analysis of the proposals for each geographic service area as defined by the director to ensure the provision of health and medical services that are required to be provided throughout the geographic service area pursuant to section 36-2907.

5. For the submittal of proposals by a group disability insurer, hospital and medical service corporation, health care services organization

or any other qualified public or private person intending to submit a proposal pursuant to this section. Each qualified proposal shall be entered with separate categories for the distinct groups of persons to be covered by the proposed contracts, as set forth in the request for proposal.

6. For the procurement of reinsurance for expenses incurred by any contractor or member or the system in providing services in excess of amounts specified by the director in any contract year. The director shall adopt rules to provide that the administrator may specify guidelines on a case by case basis for the types of care and services that may be provided to a person whose care is covered by reinsurance. The rules shall provide that if a contractor does not follow specified guidelines for care or services and if the care or services could be provided pursuant to the guidelines at a lower cost the contractor is entitled to reimbursement as if the care or services specified in the guidelines had been provided.

7. For the awarding of contracts to contractors with qualified proposals determined to be the most advantageous to the state for each of the counties in this state. A contract may be awarded that provides services only to persons defined as eligible pursuant to section 36-2901, paragraph 6, subdivision (b), (c), (d) or (e). The director may provide by rule a second round competitive proposal procedure for the director to request voluntary price reduction of proposals from only those that have been tentatively selected for award, before the final award or rejection of proposals.

8. For the requirement that any proposal in a geographic service area provide for the full range of system covered services.

9. For the option of the administration to waive the requirement in any request for proposal or in any contract awarded pursuant to a request for proposal for a subcontract with a hospital for good cause in a county or area including but not limited to situations when such hospital is the only hospital in the health service area. In any situation where the subcontract requirement is waived, no hospital may refuse to treat members of the system admitted by primary care physicians or primary care practitioners with hospital privileges in that hospital. In the absence of a subcontract, the reimbursement level shall be at the levels specified in section 36-2904, subsection H or I.

D. Reinsurance may be obtained against expenses in excess of a specified amount on behalf of any individual for system covered emergency or inpatient services either through the purchase of a reinsurance policy or through a system self-insurance program as determined by the director. Reinsurance ~~may~~, subject to the approval of the director, MAY be obtained against expenses in excess of a specified amount on behalf of any individual for outpatient services either through the purchase of a reinsurance policy or through a system self-insurance program as determined by the director.

E. Notwithstanding the other provisions of this section, the ~~system~~ ADMINISTRATION may procure, provide or coordinate system covered services by interagency agreement with authorized agencies of this state or with a

federal agency for distinct groups of eligible persons, including persons eligible for children's rehabilitative services ~~through the department of health services~~ and persons eligible for comprehensive medical and dental program services through the department OF ECONOMIC SECURITY.

F. Contracts shall be awarded as otherwise provided by law, except that in no event may a contract be awarded to any respondent that will cause the system to lose any federal monies to which it is otherwise entitled.

G. After contracts are awarded pursuant to this section, the director may negotiate with any successful proposal respondent for the expansion or contraction of services or service areas if there are unnecessary gaps or duplications in services or service areas.

Sec. 13. Section 36-2907, Arizona Revised Statutes, is amended to read:

36-2907. Covered health and medical services; modifications; related delivery of service requirements; definition

A. Subject to the limitations and exclusions specified in this section, contractors shall provide the following medically necessary health and medical services:

1. Inpatient hospital services that are ordinarily furnished by a hospital for the care and treatment of inpatients and that are provided under the direction of a physician or a primary care practitioner. For the purposes of this section, inpatient hospital services exclude services in an institution for tuberculosis or mental diseases unless authorized under an approved section 1115 waiver.

2. Outpatient health services that are ordinarily provided in hospitals, clinics, offices and other health care facilities by licensed health care providers. Outpatient health services include services provided by or under the direction of a physician or a primary care practitioner.

8. Family planning services that do not include abortion or abortion counseling. If a contractor elects not to provide family planning services, this election does not disqualify the contractor from delivering all other covered health and medical services under this chapter. In that event, the administration may contract directly with another contractor, including an outpatient surgical center or a noncontracting provider, to deliver family planning services to a member who is enrolled with the contractor that elects not to provide family planning services.

9. Podiatry services ordered by a primary care physician or primary care practitioner.

10. Nonexperimental transplants approved for title XIX reimbursement.

11. Ambulance and nonambulance transportation, except as provided in subsection G of this section.

(h) Well exams are not a covered health and medical service, except mammograms, pap smears and colonoscopies.

C. The system shall pay noncontracting providers only for health and medical services as prescribed in subsection A of this section and as prescribed by rule.

D. The director shall adopt rules necessary to limit, to the extent possible, the scope, duration and amount of services, including maximum limitations for inpatient services that are consistent with federal regulations under title XIX of the social security act (P.L. 89-97; 79 Stat. 344; 42 United States Code section 1396 (1980)). To the extent possible and practicable, these rules shall provide for the prior approval of medically necessary services provided pursuant to this chapter.

E. The director shall make available home health services in lieu of hospitalization pursuant to contracts awarded under this article. For the purposes of this subsection, "home health services" means the provision of nursing services, home health aide services or medical supplies, equipment and appliances, which are provided on a part-time or intermittent basis by a licensed home health agency within a member's residence based on the orders of a physician or a primary care practitioner. Home health agencies shall comply with the federal bonding requirements in a manner prescribed by the administration.

The administration shall contract with the department of health services for the delivery of all medically necessary behavioral health services to persons who are eligible under rules adopted pursuant to this subsection. The division of behavioral health in the department of health services shall establish a diagnostic and evaluation program to which other state agencies shall refer children who are not already enrolled pursuant to this chapter and who may be in need of behavioral health services. In addition to an evaluation, the division of behavioral health shall also identify children who may be eligible under section 36-2901, paragraph 6, subdivision (a) or section 36-2931, paragraph 5 and shall refer the children to the appropriate agency responsible for making the final eligibility determination.

G. The director shall adopt rules for the provision of transportation services and rules providing for copayment by members for transportation for other than emergency purposes. Subject to approval by the centers for medicare and medicaid services, nonemergency medical transportation shall not be provided ~~to persons who are eligible pursuant to sections 36-2901.01 and 36-2901.04 and who reside in a county with a population of more than five hundred thousand persons~~ EXCEPT FOR STRETCHER VANS AND AMBULANCE TRANSPORTATION. PRIOR AUTHORIZATION IS REQUIRED FOR TRANSPORTATION BY STRETCHER VAN AND FOR MEDICALLY NECESSARY AMBULANCE TRANSPORTATION INITIATED PURSUANT TO A PHYSICIAN'S DIRECTION. Prior authorization is not required for

medically necessary ambulance transportation services rendered to members or eligible persons initiated by dialing telephone number 911 or other designated emergency response systems.
